

牙科部2015年SCI學術論文發表

編號	姓名	文章題目	發表刊物	類別
1	謝義興	Polarization of tumor-associated macrophages and Gas6/Axl signaling in oral squamous cell carcinoma	Oral Oncology	original article
2	謝義興	Evaluation of missing-tooth effect on articular eminence inclination of temporomandibular joint	Journal of Dental Sciences	original article
3	謝義興	Frequency and distribution of mandibular condensing osteitis lesions in a Taiwanese population	Journal of Dental Sciences	original article
4	江正陽	Role of Shh and TGF in cyclosporine-enhanced expression of collagen and α -SMA by gingival fibroblast.	Journal of Clinical Periodontology	original article
5	江正陽	Root coverage by coronally advanced flap with connective tissue graft or/and enamel matrix derivative: a meta-analysis.	Journal of Periodontal Research	original article
6	李曉屏	Chronic osteomyelitis with proliferative periostitis in the lower jaw	Journal of Dental Sciences	case report
7	邱國洲	Polarization of tumor-associated macrophages and Gas6/Axl signaling in oral squamous cell carcinoma	Oral Oncology	original article
8	黃仁勇	Preoperative Assessment of Labial Bone Perforation for Virtual Immediate Implant Surgery in the Maxillary Esthetic Zone: A Computer Simulation Study	The Journal of the American Dental Association	original article
9	黃仁勇	Risk factors of lingual plate perforation for immediate implant placement in the posterior mandible: a computer simulation study	The Journal of the American Dental Association	original article
10	黃仁勇	The association between temporomandibular disorders and joint hypermobility syndrome: a nationwide population-based study	Clinical Oral Investigations	original article
11	莊傳宗	Preparation of a drug carrier through α -cyclodextrin-induced micellization of poly(ϵ -caprolactone-block-4-vinylpyridine)	Journal of Polymer research	original article
12	蔣孟達	Evaluation of missing-tooth effect on articular eminence inclination of temporomandibular joint	Journal of Dental Sciences	original article
